

Appl No. 10/050,395  
Amdt. dated September 1, 2004  
Reply to Office Action of August 11, 2004  
Attorney Docket K-1709

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

**LISTING OF CLAIMS:**

1.(previously presented) An adjustment device adapted for use between a drill motor and a work piece, said adjustment device comprising:

a first portion having a leading end and an internal surface, the internal surface including an internal thread having a first pitch; and

a second portion having an outer surface and an inner surface, the outer surface including an external thread having a pitch substantially the same as the first pitch and the inner surface including an internal thread having a second pitch, wherein the first threaded pitch is different from the second threaded pitch;

the outer surface of the second portion situated to threadedly engage the internal threaded leading end of the first portion, and the threaded inner surface of the second portion situated to threadedly engage a mating thread carried by either the drill motor or the work piece, such that the overall length of the adjustment device may be adjusted by adjusting the first and second portion relative to one another.

2.(cancelled)

3.(previously presented) An adjustment device adapted for use between a drill motor and a work piece, said adjustment device comprising:

a first portion defining a slip fit member;

a second portion defining a threaded member being threadedly engageable with a mating thread, wherein the first and second portions adjustably engage one another; and

a clamp adapted to retain the threaded member in a fixed position against the mating thread;

wherein the adjustment device having an overall length adapted to be adjusted by adjusting the first and second portions relative to one another, whereby the overall length is adapted to be adjusted to vary a distance between the drill motor and work piece.

4.(cancelled)
